NOTES

Page 11. LOCAL TAX REVENUE

Data in this table are as reported by individual county governments on the Survey of Tax and Intergovernmental Revenue Form TI-9. The 'total' figures include: (1) all taxes levied specifically for a particular county - whether collected by the county or the state government, such as property, sales and gasoline taxes and (2) all licenses, fees and permits such as auto tags, drivers license, privilege license, hunting permits, etc. County officials' fees or commission deducted from taxes, permits or licenses are also included.

Pages 16 and 17. COUNTY SCHOOLS

Expenditures in the ***Annual Reports*** of the State Board of Education do not include certain monies distributed at the State level, primarily textbooks, teacher retirement, and Social Security; therefore, per pupil expenditures computed from these ***Reports*** are lower than those figured at the national level by state and reported the the ***Statistical Abstract of the United States.*** In addition, the county figures reported on pages 16 and 17 do not include expenditures, pupils or teachers in the 60 city school systems in the State which enrolled 234,700 pupils in 1989-90, nor are private schools included which enrolled approximately 54,303 pupils in 1979-80, the last year for which private school data is available in Alabama.

Page 53. LOCAL SOCIAL SERVICE EXPENDITURES

Use caution in attempting to draw conclulsions from direct intercounty comparisons of financial amounts. Such comparisons should take into account the diversity of responsibilities for various functions among different governments. For example, some governments operate facilities such as hospitals or solid waste processing facilities which actually serve a group of counties. Also, any intercounty government is counted only once and is assigned to the county where its headquarters is located or in the case of municipal governments to the county area having the largest share of its population.

Page 79

SOCIAL INSURANCE PAYMENTS: Individual contributions to social security, unemployment insurance, etc.
RESIDENCE ADJUSTMENT: Based on commuting, allocates earnings to county in which worker resides.
PROPERTY INCOME: Rents, dividents, interest, etc.
TRANSFER PAYMENTS: Social security, veterans benefits, military retirement, public assistance, welfare, etc.
